I have spent almost 30 years in the Fire Service and have been a member of the Association since I entered. I have served the Association in one capacity or another since 2005 and I was fortunate enough to be elected as President. When there was a sudden vacancy on the Board I was asked to consider stepping in and going through the positions again. This Association is tied to my career in the Fire Service. My closest friends and mentors have come through the USFA. I would be honored to continue serving as 1st Vice President.
